Egyptian Minister Resigns

Third Cabinet Crisis In Three Months; Pasha Asked to Form New Gov't Today

ALEXANDRIA, Egypt (AP)—Turbulent Egypt struggled with her third Cabinet crisis in five months today after the resignation of Prime Minister Ahmed Naguib Hilaly Pasha and the naming of another veteran independent politician, Hussein Sirry Pasha, to form a new government.

The 60-year-old Sirry Pasha, who has been Premier three times before, received King Farouk's mandate to form a Cabinet last night and at once began discussions with political leaders.

His task was made more complex by the usual summertime dispersal of government activity between the court, in residence here for the season, and offices in Cairo. Politicians shuttled back and forth between the two capitals.

No official reason was given for Hilaly Pasha's resignation Saturday, but there was speculation that he had not moved fast enough with his announced program of cleaning up graft in the Egyptian government and winning the nation's chief aims—to oust the British from the Suez Canal zone and to unify Egypt and the neighboring Anglo-Egyptian Sudan.

Dispatches on the Cabinet crisis were subject to considerable delay. The cable and wireless office in London said an Associated Press dispatch Saturday, reporting Hilaly's resignation, was held by Egyptian censors for 36 hours.

Hilaly, himself, refused to make any statement to newsmen on his resignation.

An outgoing Cabinet minister, however, said the government "had found several obstacles which have made our job impossible." His only other explanation was that "certain irresponsible persons" had approached the U.S. Embassy in Cairo in an effort to undermine Hilaly.

An embassy spokesman at once asserted that U.S. policy "is not to interfere with the domestic politics of another country, and this policy has been adhered to strictly by this embassy."

The Egyptian press recently had criticized the Premier for the stalemate in talks with the British on the Suez and Sudanese questions. The British unofficially have agreed to evacuate the canal zone by stages but still refuse to recognize King Farouk's sovereignty over the Sudan, which Britain now administers.

Farouk's sovereignty over the disputed territory—which Britain and Egypt technically had ruled jointly—was proclaimed last October by the government of then Premier Mustapha el Nahas Pasha and Parliament, which was dominated by Nahas Pasha's intensely nationalist Wafdist party.

At the same time the Egyptians declared the joint British-Egyptian rule of the Sudan at an end and scrapped the 1936 defense treaty with Britain under which the British had garrisoned the Suez Canal zone.

Britain's refusal to recognize these actions touched off a series of British-Egyptian clashes.

A day later King Farouk dismissed the Nahas Pasha government and chose an independent Premier, Aly Maher Pasha. He held office a month before Wafdist opposition forced him out. Hilaly Pasha succeeded him on March 1.

The latest choice for Premier, Sirry Pasha, was educated in Paris and entered government service in 1916 as an irrigation engineer. He rose to the post of secretary-general of the Works Ministry and later, between 1925 and 1942, headed the Ministries of Works, National Defense and Finance in various cabinets.

On to Washington

EPHRAATA, Wash. (AP)—"Send Washington to Washington for Washington."

That's the way State Sen. Nat Washington of Ephrata announced his candidacy today for the Democratic nomination for congressmen-at-large in the Sept. 9 primaries.

Rev. Glen Lindley Resigns Pastorate Sunday Of Congregational-Presbyterian Church

The Rev. Glen Lindley, who has served as pastor of the Federated Congregational and Presbyterian Church since September, 1949, tendered his resignation Sunday morning at church services and announced he will retire from the ministry.

Mr. and Mrs. Lindley will go to Biloxi, Miss., where they have purchased a home.

Born on a farm in Indiana, Mr. Lindley had in his mind as a boy to become a minister. However, after he was grown he taught school for three years, went into politics and served as county treasurer at Kokomo, then went to Oklahoma where he was in the lumber business.

If he was going to be in business, Mr. Lindley thought, he would rather be in the lumber business than anything else, but he still wanted to be a minister. With a wife, two little girls and no money, he said, he started the five years in the seminary to become a minister. He had attended the Indiana Teachers College

Miss Hazel Palmer Nominated as BPW National Officer

BOSTON (AP)—Miss Hazel Palmer, Sedalia, Mo., is a nominee for the second vice-presidency of the National Federation of Business and Professional Women's Clubs.

She was nominated for the post, along with Miss Ella V. Ross, Johnson City, Tenn., at the opening session Sunday of the annual convention.

The election will be held Wednesday.

Kansas City's Grain Handlers Strike Ended

Action Paralyzed Unloading Vast Grain Shipments

KANSAS CITY (AP)—The one-day grain handlers strike that paralyzed wheat unloading operations ended today with an agreement between the grain handlers' union and the elevator operators.

The settlement ended fear of a full embargo on shipments of wheat to Greater Kansas City elevators at the height of the grain shipping season.

After a negotiating session that lasted a little more than an hour it was announced that the 15 elevator operators had agreed to a wage increase for the 300 members of the American Federation of Grain Millers (AFL). The agreement provides for an increase of 12½ cents an hour until Sept. 1, and then a further hike of 2½ cents an hour. The union had asked for 17 cents an hour.

Before the negotiators went into session, R. E. Clark, an official of the Association of American Railroads, had announced a full embargo unless the strike was settled by noon. After word of the settlement reached him, Clark said the embargo would not be imposed.

Only one of the area's 15 terminal public elevators was not involved. Its employees belong to a CIO union, which did not walk out.

Grain handlers include all the working forces at the elevators. They weigh in cars, unload the grain, and mix it.

When the settlement came, the strikers were ready to go back to work. They had reported to the elevators, but remained idle pending word from the negotiating session.

About 7,000 cars of grain clogged rail sidings today.

Clark estimated that another 5,000 cars were on their way to this grain center.

J. A. Leveridge, business agent for the local, said the elevator companies had offered a hike of 6 cents an hour and some fringe benefits. The present was \$1.50 an hour minimum.

Airmen On Inspection Tour of Korean Area

SEOUL, Korea (AP)—A group of key U. S. air officials headed by Roswell L. Gilpatrick, under secretary for air, and Gen. Nathan F. Twining, acting chief of the air staff, arrived today on an inspection tour.

Ask Queen's Salary

LONDON (AP)—Parliament was urged today to give Queen Elizabeth II a yearly salary of 475,000 pounds or \$1,336,000—a raise of \$182,000 compared with the wages of her late father.

(AP Wirephoto.)
ANNE HADLEY WEDS—The daughter of Mrs. Alben Barkley, the wife of the nation's vice-president and the former Jane Rucker of Sedalia, Anne Hadley is shown coming down the steps of the Broadway Methodist Church, Paducah, Ky., with her husband, Mr. Welden Behrend, following their wedding Saturday.

Emil Morris Jr., Gets 25 Years for Murder

Former Sedalian Enters Guilty Plea To Second Degree Murder In Death Of His Wife, Fatally Shot March 8

LINNEUS, Mo. (AP)—Emil Morris Jr., former Sedalia policeman and photographer, pleaded guilty Monday to second degree murder in the slaying of his wife last March 8.

The 27-year-old Morris was sentenced to serve 25 years in the state penitentiary by Circuit Judge G. Delk Green.

He was arrested at Chillicothe a day after the slaying of his wife, Mrs. Vera Morris, 31, at Marcelline. At that time Bert Weir, Chillicothe chief of police, said Morris admitted the shooting, saying it followed a quarrel.

A jury panel had been assembled for the beginning of the trial Monday when Morris' attorney, Sam Mahan, Sedalia, announced the defendant wished to plead guilty to second degree murder.

Harlan said he felt there were mitigating circumstances in the case. He said Morris contended he was taking his revolver from his pocket to give to his wife. He said she had asked him to give her the weapon. Then, the attorney continued, the revolver was discharged in some unexplained manner.

The woman's body was found in an upright position in the family motor car near a tavern.

Morris formerly served on the Sedalia police force and worked as a photographer and engraver. The couple was married last December.

Hottest June Ever Causes 35 Deaths In St. Louis Area

ST. LOUIS (AP)—The hottest June listed on weather bureau records here directly or indirectly caused at least 35 deaths in the St. Louis area.

Sixteen persons died yesterday as temperatures climbed to 104 in the city and to 105 at the airport.

The official reading made it the hottest June 29 on record, and, with a high of 102 forecast for today the month will go into the books with 25 days of 90 or above temperatures and eight days of heat at or above the 100 degree mark. That makes it the hottest June in the history of the U.S. weather station here.

Previously, the hottest June came in 1934 when there were 22 days of 90 or above temperatures. Mean temperature—the average of daily low and high temperatures—for the month has been 84.5 degrees, compared with a normal mean of 75 and the previous record of 82.6 in 1934.

"All of these measures stem from the deliberate desire to separate the two parts of Germany and to prevent any contact with their inhabitants," said U. S. High Commissioner John J. McCloy in a letter to Gen. Vassily Chuikov, chief of the Soviet Control Commission.

While he served on the board of directors of the Rotary Club, the board of directors of the Knife and Fork Club and as president of Sedalia's Little League, Mrs. Lindley has been active in women's societies of the church and the Sedalia Garden Club.

A good speaker and a lover of poetry, Mr. Lindley has given many inspiring talks before Sedalia groups as well as the sermons in his own church.

Mr. Lindley told his congregation Sunday that during his ministry he had a unique experience and an opportunity to observe situations which caused him, long before he came to Sedalia, to decide very positively that he would not continue in a field after he had retired from a church as its minister. "I know from experience and observation what an embarrassment and handicap a retiring minister can be to a church and to a new pastor, he said, and therefore, we are not thinking of remaining in Sedalia."

Continuing, Mr. Lindley said that he and Mrs. Lindley had been in practically every part of the country and after looking over the nation have decided to make their home on the Gulf Coast at Biloxi.

They have purchased a southern style home near the center of the city and Mr. Lindley, who is a good carpenter as well as a minister, plans to remodel it to suit themselves. He has previously built four houses himself, all summer houses, one of which he recently sold for \$3,000, and he expects to have a great deal of fun in making over his new home.

It was with deep regret that the congregation of the Congregational Presbyterian Church accepted Mr. Lindley's resignation for as one of his congregation put it, "He had reached the hearts of all."

To Sign Controls Extension

At Least Truman Is Expected Today To Okey Measure Expiring at Midnight

WASHINGTON (AP)—Administration leaders said today President Truman will sign later in the day a bill extending wage and price controls for 10 months.

Speaker Rayburn (D-Tex.) told reporters after a White House conference that the president is "not too well pleased with it" but that signing the measure is "the only thing he can do."

The bill as passed by Congress Saturday bears little resemblance to the controls legislation Truman asked of the House and Senate last year.

He wanted authority to control wages and prices extended for two years, until June 30, 1954, and he asked that the current controls provisions—contained in the Defense Production Act of 1950—be strengthened.

Instead, Congress weakened some of the controls authority and placed a 10-month limit on an extension. The Defense Production Act will expire at midnight tonight unless the President signs the extension.

Rayburn and Sen. McFarland (D-Ariz.) Senate majority leader, said after the conference that they see no reason for calling Congress back in special session after the political conventions in July.

With the big military appropriation bill and the mutual security appropriation measure the only major items remaining for action, the two legislators said Congress should be able to quit Saturday night.

Rayburn told questioners the President "didn't seem very enthusiastic" over the legislation even though the final bill was considered a victory for the administration after the House earlier had voted to kill nearly all wage-price controls.

Senate Votes Air Force Money Bill

Allows Fighting Strength Build-up To 143 Wings in '55

WASHINGTON (AP)—The Senate voted unanimously today to give the Air Force enough money to build its fighting strength to 143 wings by the middle of 1955.

WASHINGTON (AP)—Reports of mounting Russian atomic striking power set off a Senate drive today to force the administration to speed up development of American hit-back strength.

Sen. O'Mahoney (D-Wyo.), piloting the 46-billion-dollar military appropriations bill through the Senate, said the defense program could be advanced a year by adding \$3,600,000,000 to the nearly 6 billions cash the bill would provide to expand the Army, Navy and Air Force.

The bill is up for passage today. O'Mahoney said he would propose an amendment designed to permit the Air Force to spend an extra \$3,600,000,000 on credit.

His chief goal, he said, is a 143-wing Air Force by July, 1954, a year ahead of the administration's schedule.

The Joint Chiefs of Staff have told congressional committees they expect Russia will reach a peak of power by mid-1954. They said this will mark the start of a "period of greatest danger" to this country.

Gen. Nathan F. Twining, acting head of the Air Force, said Russia soon may have enough atomic bombs to launch a surprise attack plus "a reserve for succeeding tries if the first should fail." He also said Russia now has at least as many first-rate combat planes as the U.S.

Sen. Ferguson (R-Mich.) said he would fight the O'Mahoney amendment. He told the Senate Saturday he believes the \$43,734,750,722 in the bill in its present form would provide all the planes the Air Force can absorb in the next two years, and "bring some of the luxury" out of Pentagon spending policies.

Sen. Lyndon B. Johnson (D-Tex.) said the Joint Chiefs of Staff have informed his preparedness subcommittee they could have 143 air wings ready by mid-1954 if Congress would put up the money.

The huge money bill—the biggest before Congress this year—is about five billions less than President Truman had requested and nearly a half-billion below the total voted by the House.

It does not include a House-voted 46-billion-dollar ceiling on amounts the armed forces could spend this year. The Pentagon called that a crippling amendment which would block the use of money previously appropriated and hurt the defense effort.

Ferguson said he and a group of colleagues feel the bill as it now stands "will force the military to accept the fact that the American taxpayer wants and is entitled to economy which, in our belief, actually would strengthen and not weaken our fighting forces."

Guerillas Kill 61

PUSAN, Korea (AP)—The U. S. 2nd Logistical Command today said 61 persons were killed by guerillas in a train attack June 24 in Southwest Korea. The dead included two American soldiers.

EGGASPERATINGLY HOT—Carol and Cheryl Judy, 3, identical twins of Kansas City, Kan., fry a tasty egg on the stove-hot sidewalk. The area has been sweltering in heat which in some places has climbed to a thermometer-popping 115 degrees.

Lloyd Freund Retires Saturday After 46 Years as a Barber

Lloyd L. Freund, 811 West Seventh, who since 1906 has been in the barber business, put his scissors and clippers away Saturday night and is retiring. For the past six years Mr. Freund has been at the Bothwell Hotel Barber Shop.

The genial barber, who started his career in Cross Timbers when a rack held the individual shaving mugs of customers on which were their pictures, their names or the names of their businesses, and when hand clippers were used instead of electric clippers, is planning on doing just the things he wants to do from now on.

He was in Cross Timbers three years, then he went to Warsaw where for three years he was in the barber shop owned by George Humphrey. From Warsaw he went to Odesa and in 1918 returned to Warsaw. It was in 1923 that he came to Sedalia and has been here ever since, part of the time working for someone else, part of the time in business for himself.

It was the time when practically every woman had bobbed hair that Mr. Freund started to work in Sedalia and the women liked the way he cut their hair—in fact—they almost didn't give the men a chance to get in Freund's chair and he still cuts 15 to 20 heads of feminine tresses a day—or rather he did until Saturday night. He even has customers who come regularly to get haircuts from Kansas City, Jefferson City and other places.

He has clipped Mrs. Albin Barkley's hair many times when she was Jane Rucker, and he cut it for her the day before she left Sedalia.

He gave a haircut to a woman who had a hundred years old on her birthday anniversary, the first haircut she ever had in her life.

When asked if he ever had much trouble cutting children's hair, he laughed and said, "No, I love kids and I always get along with them—well—of course, now and then there will be a little outlaw I have some trouble with—but I manage."

But if Mr. Freund is well liked by the women and children he is equally popular with the men—Freund (friend) seems to be a good name for him, even if it is spelled a bit differently.

"What does your wife think about your retiring," he was asked.

"I don't think she really believes it," he replied. "But I believe in quitting while I am still able to enjoy life and that is what I am going to do."

He has a farm with a lot of white faced cattle which he thinks will take up a good deal of his time, and there is a well place to hunt and fish there, too, so he plans to spend quite a little time there. Then he plans to drive down to Buffalo a little more often to visit his daughter, Mary Lloyd, who is Mrs. Shields Wylson, Mr. Wylson and that adored grandchild, Mary Sheila.

Then when it gets cold he isn't going to have to stay here and take it if he doesn't want to, he will just take his wife and go down south where it is warm. Yes, he has lots of plans and he is going to miss his customers, but he is going to have so many interesting things to do that he doesn't think he will get lonesome.

Taking Mr. Freund's place is Charles Huntington, who came to Sedalia from Newberg in May. He and his wife, the former Velma Cunningham, who is a Sedalia girl, have a home at Beaman. They have been wanting to come to Sedalia for several years and now this is their opportunity.

Mr. Huntington has been in the barber business for 30 years and he is also a ladies' hair stylist.

He was at Stix, Baer and Fuller in St. Louis as a hair stylist, managed the barber shop at the Missouri Athletic Club in St. Louis, and prior to that was in Chicago

102 Here Sunday, '52 High

Not Just Local Condition, However, For Heat Spreads Across the Nation

Sedalians tried every trick in the books, and some inventions of their own, Sunday to escape the heat. The temperature soared to 102 degrees, the first time in two years that it had reached the three-figure mark, and there wasn't enough breeze to blow a feather two inches.

Sweltering was the word for everyone except the 1,022 persons who took dips in the swimming pool—and they had only temporary relief.

But Sedalia wasn't the only place that was hot. The Associated Press reports:

A blistering heat wave, of more than a week's duration in some areas, showed little let-up over Southern and central parts of the country today.

Some rain and wind storms hit parts of the sun-baked sections in the eastern half of the nation, bringing temporary relief. Rain fell in sections of the parched Southern states, where crops are threatened by the prolonged hot-dry spell.

It was a weekend of stifling heat in many areas. Temperatures in the 90s to as high as 108 were reported in central and Southern states east of the Rockies. Refreshing breezes and rain storms brought relief to hot spots in sections of the East and South Atlantic states.

The death toll from the summer season's longest stretch of hot weather mounted toward the 200 mark. Thousands of persons have been hospitalized for heat prostration.

Beaches, parks and resort areas were jammed with millions trying to escape the scorching heat. In Chicago, sweltering in the 11th day of 90-degree or higher temperatures in June, an estimated one million persons swarmed to the city's dozen Lake Michigan beaches.

It was a record June 29 reading of 96, and today's high of 87 was expected to be followed by a top of 98 and high humidity tomorrow. In St. Louis—wary from five consecutive days of temperatures above 100—the prospect was for more of the same for the next few days. Yesterday's reading was 104, marking the 25th day of 90 or higher this month. Twenty-four persons have died from effects of the heat.

But in Malden, Mo., the mercury climbed higher, hitting 108, the top mark posted in the U. S. Weather Bureau's map. Kansas City stayed in the weather hot-box with a top of 102. It was 104 in Chanute, Kan., 103 in Nashville, 101 in Wichita, 100 in Memphis and Toledo, 99 in Columbus, 98 in Cincinnati and Oklahoma City and 93 in Des Moines.

Thunderstorms struck New York City about midnight, dissipating the threat of immediate hot weather.

Similar storms hit Washington, D. C., and various parts of Maryland, which has been hard hit by the hot spell. Winds up to 65 miles an hour swept Baltimore and in the Chesapeake Bay area.

Other storms struck in the area of Norfolk, O., Pittsburgh and in sections of the Southeast. One rain belt extended from the Tuscaloosa-Birmingham area in Alabama across middle and Northern Georgia and over most of Northwestern South Carolina. The rain did millions of dollars of good to heat-imperiled tobacco, peanut and melon crops.

No Change

After Sunday's 102—highest for the year in a season of perpetual highs—the weatherman just ups and says: "Little change in temperature." Isn't he getting tired of a daily menu that reads the same?

But, Sedalians had it nice for Sunday—only 102. We note Malden led the Show Me Sweat Parade with 108. West Plains and St. Louis had 105, Rolla 104, Joplin and St. Joseph 103.

Up in the far north regions, of Missouri, that is, they had some rain Sunday.

Both cars were demolished and the occupants of both cars were brought to Sedalia in the Kidwell, Gene Alley and Scribner ambulances.

The injured were treated at the Gunn Clinic in Versailles before being brought to Sedalia.

Here they were treated by Dr. Gordon Stauffacher and Sheriff Wood by Dr. John Lamy.

Judy Michener was taken to the Research Hospital in Kansas City late Sunday night after being dismissed from the Bothwell.

All the Sedalians are students at Smith-Cotton High School.

Lake of the Ozarks: 5.0; no change.

Thought for Today

The wicked walk on every side, when the vilest men are exalted.

—Psalms 12:8.

Evil is fittest to consort with evil. — Livy.

Gen. Mac Would Accept Noep Post; Senate Spurs Watchdogs

By Drew Pearson

(Copyright 1951. By The Bell Syndicate, Inc.)

WASHINGTON—A quiet move is under way among some Taft supporters to nominate General MacArthur as vice president on the Taft ticket.

They figure that after the general finishes his keynote speech he will receive such popular acclaim that it would not be difficult to put him across for the No. 2 place.

Though there's been some question as to whether MacArthur would accept the vice presidential nomination, one man, publisher John H. Perry, has sounded him out and found him receptive.

Perry, a friend of Senator Taft, was talking with MacArthur about the political picture generally and Taft especially. He told the general that he felt Taft was fairly sure of being nominated and that the ticket would be strong indeed if MacArthur were to run for vice president.

"Let it never be said," replied MacArthur, "that I shirked a call to duty."

He went on to state at some length that his country had given him a magnificent education at West Point, had paid and supported him for fifty years. Therefore, he was at the command of his country.

Secret Senate Votes

The most significant votes frequently are not those in the secrecy of committee. Likewise, the most significant votes are not always on bills which will become laws, but on the confirmation of men appointed to carry out the laws.

Three different votes took place last week on three men entrusted with carrying out the laws and guarding the interest of the public. They showed how far the Senate has drifted away from safe guarding the public. Here are the three different votes on the three different alleged public watchdogs:

Watchdog No. 1—Tom Buchanan, chairman of the Federal Power Commission, was vetoed by the Senate Interstate Commerce committee. He had served on the commission for four years, fought for the consumer against the big gas and oil companies, was the only commissioner to oppose the principles of the Kerr gas bill which will soon hike the cost of natural gas to housewives by about \$100,000,000 annually.

Though Buchanan was reappointed by Truman last May, the Senate committee stalled action on his appointment for almost two solid months, thanks to the secret maneuvering of the gas lobby. Finally, the Senate committee voted in strictest secrecy, with everyone pledged not to reveal the result. This column, however, has been able to obtain the votes and only four senators, Magnuson of Washington, Johnson of Colorado, McMahon of Connecticut, Democrats, and Tobey of New Hampshire, Republican, voted for this public watchdog.

Against Watchdog

Nine senators opposed him: Johnson of Texas; O'Connor of Maryland; Hunt of Wyoming; Democrats; and Capehart of Indiana, Brickner of Ohio, Williams of Delaware, Kenn of Missouri and Brewster of Maine, Republicans.

Brewster earnestly scurried around among committee members lining up votes against Buchanan almost as if his life depended on it. Yet his state, Maine, needs cheap natural gas.

Alleged Watchdog No. 2—On the same day that the committee voted against Buchanan, the Senate confirmed James H. Flanagan for the public utilities commission of the District of Columbia, even though he has voted for almost every public utility rate increase since 1934.

Flanagan once publicly chided him for failing to have the public interest at heart.

Sensors were so apathetic on this vote that only two were on

the floor. Hill of Alabama and Cain of Washington, when the vote was taken.

Alleged Watchdog No. 3—The same committee which vetoed federal power chairman Buchanan turned round and OK'd with almost no dissenting voice Charles Mahaffie for a new 7-year term as interstate commerce commissioner.

Mahaffie is 63 years old, therefore cannot possibly serve a 7-year term, since he must retire at seventy. Furthermore, Mahaffie has a consistent record of voting against the general public and for the big insurance companies in railroad reorganization cases which have wiped out billions invested in railroads by the public.

Insurance Watchdog

This practice by Commissioner Mahaffie and the ICC has been blasted by Justice Felix Frankfurter, who described the tendency to wipe out holders of junior railroad stocks in order to protect the senior bondholders as "the forfeiture of existing securities of vast proportions."

In case after case the interstate commerce commission has decided that certain railroads could not pay more than a certain amount on their securities. This has wiped out or seriously hurt the junior security holders. But frequently, Justice Frankfurter pointed out, the ICC's estimate was wrong and the railroads earned more than the ICC estimated—after it was too late to help the junior security holders.

The man who led the bad guessing in favor of the gilded bondholders and big insurance companies usually has been Commissioner Mahaffie, whom the Senate Interstate Commerce Committee enthusiastically OK'd after turning thumbs down on Buchanan, the man who fought to protect the public.

Only senator who showed up Mahaffie's record was the veteran crusader, Senator Tobey of New Hampshire, Republican.

Democrat Pick-Ups

Odds and Ends
By News Staff

It seems as though Judy's owner has a cough and she must have the windows raised even in the winter time or she just can't sleep for coughing—and Judy got cold—so she made Judy a little nightdress and a little cover to go over her bed.

Judy slept contently during the winter nights—but now that summer comes she still wants to wear her nightie. In fact she just won't sleep without it. She wanted her cover, too, but was finally convinced she didn't need it—the nightie was a different matter—she was afraid and restless unless she had it on—but as soon as the nightie was put on her she just stretched out and went right to sleep.

One night recently a neighbor who is ill wanted to see Judy in her nightie so she was taken over to the neighbor's home—she walked in very unconcerned, but if Judy thought it was the thing to do for a lady to go calling in her nightie, the neighbor's dog didn't. Although he and Judy are good friends he didn't like the idea of the nightie and he let her know about it—he was very gruff about it, too.

Judy's feelings were not hurt in the least—she thought she looked

Directly east of the house were the stables. . . This was Johnny's inheritance.

the blue of her eyes was almost black now. "You come racing along a winding road 70 miles an hour and you have the nerve to—" "Not 70," Johnny interrupted. "Only 62 miles per hour. Not too fast for a car this size."

She started to say something, but changed her mind. She turned back toward the coupe.

Johnny watched her. "You have the jack upside down. Turn it around." He stepped from the car. "Let me help you."

"Never mind." She kept her back toward him. She was trying to force the jack underneath the car.

Johnny said gently, "It doesn't go under the axle. It's a bumper jack."

"A bumper jack?" She stared at him wonderingly. "If you'll pull your car off the road, where it won't be a danger to traffic, I'll show you how it works."

She did as he suggested. Johnny worked silently until he opened the luggage compartment to get the spare.

The spare tire was soft.

AGAIN, Johnny shook his head. "It won't do any good to put this tire on. Didn't you ever have it checked?"

She shook her head. "Oh, well, it doesn't matter. This is my uncle's farm, right here, and he can send a man with the truck and—" "Your uncle's farm?" Johnny interrupted.

"That's right."

"Is your uncle's name Jarvis?" "Nystrom," she said. "Mr. Jarvis just works the land; my uncle raises horses, racing horses."

She looked at the convertible, up at Johnny's smiling face, and the light dawned in her eyes. "Golly," she said, "you're—you must be—"

"John Hamilton," he said.

There was a silence. She gulped, and then they were both laughing. Johnny wouldn't have believed a half hour ago that he'd find laughter this day.

"You must think I'm pretty awful," she said, finally. "Trying to fool you about the farm—"

"Not too awful," Johnny said.

Now she has undertaken a similar project to record the history of the nearby town of Steuben, where she was born on March 30, 1862.

The Sullivan record took almost five years. First she set it down on paper with ink. Then she laboriously and carefully typed it—one finger at a time.

"It has kept me busy," she relates. But it also has kept her young.

Playing With Fire?

Rains Turn Battlefields Into a Swamp

SEOUL, Korea (AP)—Three days of drenching rain have turned the Korean battlefield into a soggy swamp where croaking frogs have taken over from the booming artillery.

Allied planes were grounded again today. Even all-weather B26 light bombers remained at their bases.

Lt. Gen. Glenn O. Barcus, Fifth Air Force commander, reported Allied planes which bombed the giant Suho power plant a week ago drew heavy fire from Communist anti-aircraft guns across the Yalu River in Manchuria but made no attempt to silence them.

Barcus said last week's series of raids wiped out 13 power plants, all there were in North Korea.

"I don't think there is a chance in the world that the Suho plant will be operational again in this war no matter how long the war lasts," he said.

Only a few light patrols were out Monday morning.

AP Correspondent Jim Becker reported from the Western Front that all was quiet around Baldy Hill, where bitter fighting raged late last week.

Becker reported: On hills that have been the targets of Chinese barrages and night counterattacks, Allied infantrymen kept busy hauling out "boochies"—log bunkers—and shoring up muddy trenches.

Korean service troops struggled up the steep hills bearing cans of hot food for American combat infantrymen. Their boots squished in the sticky mud.

Averell Harriman seems to want to be President awful bad and there's something to be said for him from a taxpayer's standpoint. He's got so much money, maybe he'd take on some of this foreign aid as personal charity for tax deduction purposes.

Barcus said last week's series of raids wiped out 13 power plants, all there were in North Korea.

Judy Garland Feted, 'Miss Show Business'

LOS ANGELES (AP)—The half-century old Fraternity Club, actors' fraternal organization, broke tradition last night at a testimonial dinner honoring Judy Garland and allowed women on the speakers' platform.

Film players Rosalind Russell, Olivia de Havilland and Marie Wilson took the platform along with the men to pay tribute to Miss Garland as "Miss Show Business."

Toastmaster George Jessel, told a filmdom crowd of 750 that Judy "is personally responsible for the rebirth of vaudeville at the Palace Theater in New York."

Miss Garland, long in the movies, has been touring recently with her own vaudeville act, which she launched at the Palace earlier this year.

Barcus said last week's series of raids wiped out 13 power plants, all there were in North Korea.

Looking Backward

TWENTY-FIVE YEARS AGO

Cyrus Johns, Pittsburgh, Pa., arrived to join his wife and daughter, who were guests of his parents, Mr. and Mrs. W. M. Johns, of West Broadway, to remain for a week.

"Sedalia Home of the Missouri State Fair" was emblazoned in a monster road signboard erected by the Sedalia Chamber of Commerce on the Thompson farm on highway 50 west of LaMonte. Three other such signs were to be placed at roads leading into Sedalia from other directions.

Glenn Woods, former Sedalia, later of Oakland, Calif., was in the city on his way to New York to be instructor in Columbia University during the summer term.

Mr. and Mrs. Frank T. Leaming and daughters left for Springfield, Mo., to make their future home.

About 60 members of the local chapter of De Molay went to Warrsburg where the Sedalia drill team put on an exhibition at a class initiation.

FORTY YEARS AGO

During her absence from the city, the home of Mrs. Eula Cole, secretary of the Associated Board of Charities, was entered by thieves who stole a quantity of linens, bedspreads and other articles.

Christian Endeavor society members of the fourth district of the state held their convention at Green Ridge. The Rev. R. C. Williamson, of the Broadway Presbyterian Church, Sedalia, spoke on "Systematic Bible Study."

A baseball game, in addition to the usual golfing, at the Sedalia Country Club was to be an added attraction there July 4. A full day of events, including bridge for the women, was scheduled with a big ball game in the evening.

Dr. M. T. Collins, supreme medical examiner for the Catholic Knights and Ladies of America, left for Chicago to attend a meeting of the executive board of that order.

Wischmeier-Gertz Wedding Solemnized At St. John's Church In Cole Camp

The marriage of Miss Marilyn Wischmeier, daughter of Mr. and Mrs. William Wischmeier and Mr. Stanley Gertz, son of Mr. and Mrs. Ferdinand Gertz, of Cole Camp, was solemnized at 3 o'clock Sunday afternoon, May 18, in St. John's Lutheran Church northwest of Cole Camp with the Rev. A. J. Schauer, pastor, officiating.

Preceding the ceremony Miss Elvira Kroenke, soloist, sang "The Lord Is My Shepherd" and "The Lord's Prayer" accompanied by Mrs. Carl Wischmeier at the organ.

The bride, given in marriage by her father, chose a white eyelet organly over satin, ballerina length dress, with fingertip veil and carried a white prayer book on which were red roses and stephanotis.

The bridesmaid was Miss Wilma Harms. Miss Harms wore a dress of orchid eyelet styled similar to

that of the bride and carried a bouquet of white roses.

Mr. Herbert Gertz, a cousin of the bridegroom, served as best man.

At 7 o'clock in the evening a reception was held at the home of Mr. and Mrs. Julius Sieving. A four tier wedding cake on the top of which were double wedding rings centered the dining table.

Both the bride and bridegroom are graduates of the Cole Camp High School. The bridegroom served in the U. S. Army Air Force for three years.

After a short wedding trip the couple went to Kansas City where they are at home at 2540 Olive. Mr. Gertz is employed with the Ace Body Shop.

Out-of-town guests attending the reception were Mr. and Mrs. Paul Wischmeier and Mr. and Mrs. Julius Schwartz of Jefferson City, Mr. and Mrs. Henry Gertz of Wischmeier and Mr. and Mrs. Harold Gertz, Herbert Gertz, and Mr. George Brant of St. Louis.

Mr. and Mrs. Bill Thorpe and daughter, Mr. and Mrs. Otto Wischmeier and Lois Jean of Kansas City, Mr. and Mrs. Raymond Dump and Carol, Mr. and Mrs. Adolph Sieving, Miss Rosie Sieving, Mr. and Mrs. Clarence Monsees, Miss Irma Kroenke and Miss Carlene Wilken, Mr. and Mrs. James Asken and Harold Skidmore, all of Sedalia.

Miss Sue Hines Bride at Bolivar At Wedding Inn

In an informal ceremony on May 25, Miss Sue Hines, daughter of Mr. and Mrs. Price Hines of Bolivar, became the bride of Merl D. Enterline, son of Mr. and Mrs. William A. Enterline of Halfway, former Sedalians, at the Horton Wedding Inn of Bolivar. The double-ring ceremony was read by the Rev. Huell Warren of the Bolivar Christian Church.

The vows were exchanged by the couple as they stood before an altar of orchid and white gladioli and palms. A musical prelude and traditional wedding music was by Miss Janice Killingsworth and Clarence Fullerton, who sang "Always" and "Because."

The bride, given in marriage by her father, wore a white sallyna cloth dress fashioned with cut embroidery around a sweetheart neckline with a matching jacket trimmed in cutwork on the sleeves. Her bouquet was of red and white rosebuds, with white satin streamers. She carried, also, a white veiled Juliet hairnet. The bride's only attendant, wore a navy linen suit trimmed in white and her corsage was of red roses.

Mr. Delbert Enterline, brother of the bridegroom, served as best man and Mr. Robert Pufahl was an usher.

The bride's mother was attired in a dress of lilac shade with matching hat and white rosebud corsage and the bridegroom's mother was in a black sheer dress with white trimming, white hat with white rosebud corsage.

Miss Lois Armstrong presided at the guest book.

Immediately following the ceremony a reception was held. The table was decorated with an imported lace cloth and centered with a large white cake decorated with white rosebuds and lilies-of-the-valley. It was encircled with orchid and white chrysanthemums. The table was set with silver and crystal with a color scheme of orchid and white.

Mrs. Delbert Enterline served the punch, assisted by Mrs. Leroy Schanz.

The bride wore a going-away dress of navy blue and white printed silk with a red bolero jacket and matching accessories.

After the wedding trip the couple will be at home at Halfway.

Attending from Sedalia were Mr. and Mrs. J. F. Hintz.

Dental Society Has Annual Picnic

Tuesday evening, June 24, at the home of Dr. and Mrs. W. E. Pearl, 241 South Park, the Sedalia Dental Society had its annual picnic.

Those attending were: Dr. and Mrs. Ben Klein, Dr. and Mrs. H. B. Hunter, Dr. and Mrs. O. J. Durnell and two sons, Dr. and Mrs. W. E. Pearl and niece, Dr. A. L. Miller, Dr. and Mrs. F. I. Lawrence, Dr. and Mrs. J. B. Rice and two children, Dr. and Mrs. T. W. Bast, Dr. and Mrs. W. A. Montgomery, Dr. J. R. Lee, Dr. and Mrs. M. E. Walters, Mr. and Mrs. R. C. Hemphill, Mr. and Mrs. Robert Phillips, Robert Dickerson, Kenneth Farley and these assistants, Misses Dorothy Dove, Naomi Beckue, Margaret Henderson, Anita Parks and Dymple Henderson.

Out-of-town guests were Dr. and Mrs. H. Stoner, Tipton and Dr. and Mrs. C. J. Black, St. Louis.

After the picnic supper the dentists held their monthly business meeting.

Oklahomans Visit Here

Mr. and Mrs. Joseph Candioto, accompanied by their daughter and son of Okmulgee, Okla., spent the weekend here with his mother Mrs. Lena Candioto, 409 West Fourth and other relatives. They were accompanied home by Miss Jeannette Candioto, who is on vacation, for a visit of a few days.

Many Attend Picnic Sunday at City Park

A picnic dinner was held Sunday, June 22, at Liberty Park.

Those attending were Mr. and Mrs. Ralph Beymer and two sons, Portland, Ore.; Mr. and Mrs. Luther Beymer, son and three daughters, and Rosie Marie Hensley of Ft. Leavenworth, Kan.; Miss Lydia Casto, Osawatimie, Kan.; Mrs. Otis Brock, two sons and a daughter, Princeton, Kan.; Mr. and Mrs. Clark Casto, and two daughters; Mrs. Ruth Halterman, two sons from Kansas City; Mr. and Mrs. Robert Hitchcock, two sons and two daughters, from Birmingham, Ala.; Mrs. Cloyd Downs, son and daughter, Houston, Texas; Bob Stephens, Selma, Ala.; Mr. and Mrs. Wilburn Tolliver, Mr. and Mrs. Spencer Tolliver, Mr. and Mrs. Ervin Tolliver, Mr. and Mrs. Ed Vansel, Mr. Albert Vansel and six daughters, Edna Ferguson, Mr. and Mrs. Tommy Keeney, Dean Casto, Mr. and Mrs. Lindeman, Mr. and Mrs. Jack Groff, son and daughter, Mr. and Mrs. Grover Stephens, Ivan Casto, Delores Braden, Mr. and Mrs. Eli Williams, Mr. and Mrs. Beryl Beymer, two sons and daughter; Mr. and Mrs. Guy Bachman, Lorene Brownfield, Mr. and Mrs. Charles Stephens, all of Sedalia; Mr. and Mrs. Leo Lindsey, two sons and a daughter, Green Ridge and Mr. and Mrs. Pete Renfrow and son, Marshall.

Mr. Bob Braden served as best man. Following the luncheon, given by Mrs. Opal Braden at her home, the couple left for a short trip to Alabama.

Mrs. Howerton Given Pink and Blue Shower

Mrs. Haydeen Petre, Knob Noster, honored Mrs. Harold Howerton with a pink and blue shower at her home Tuesday evening.

The evening was spent playing games and refreshments were served to: Mr. and Mrs. Eul Butler, La Monte; Mr. and Mrs. John Nutt, Mrs. O'dell Rose and Pamela, Mrs. E. L. Yokley and daughters, Bobby and Cathy, Mr. and Mrs. Otto Ginn, Mr. and Mrs. Kenneth Vick, Donald, Roger and Peggy, Mrs. Bill Peery, Mrs. Don Peery, Mrs. Delores St. Andrie, Miss Evelyn Burgess and Miss Vada Nichols.

Mrs. Howerton plans to leave Knob Noster in two weeks to join her husband in Anchorage, Alaska.

Harveys Observe 50th Wedding Day

Mr. and Mrs. Jesse Harvey, Kansas City, formerly of Sweet Springs, observed their 50th wedding anniversary Wednesday, June 25, at their home with a family dinner and open house.

Mr. and Mrs. Harvey moved to Kansas City five years ago from Sweet Springs, where Mr. Harvey was a funeral director.

The sons and daughters and their families present were: Leroy Harvey, San Diego, Calif.; Albert Harvey, Ottawa, Kan.; William Harvey, Camdenton; Robert Harvey, Mrs. Melvin Killion, Mrs. John Parlett and Mrs. V. L. Thurman, Kansas City; Mrs. Charles Kendrick, Independence and Mrs. Clint Hendin, Kansas City. Fifteen grandchildren were also present.

A daughter, Mrs. R. W. Lemmons, Richmond, Calif., was unable to attend.

FRIDAY

The Fourth of July picnic dinner at the Sedalia Country Club will be held Friday starting at 6 p.m.

Delores Gorsett Gets Scholarship To William Woods

Miss Delores Gorsett, daughter of Mr. and Mrs. A. L. Gorsett, 1617 South Missouri, a delegate to Girls State, was awarded a scholarship Sunday to William Woods College, where the mock state was held.

The scholarship was presented to 17 outstanding delegates by Thomas N. Bonner, dean, at an assembly closing the week long Girls State program at the college. It was the first time the school had offered such scholarships.

Miss Gorsett, who is a senior at Smith-Colton High School, represented the American Legion Auxiliary at the state.

The other representative from Sedalia, who attended Girls State was Miss Nancy Cook, daughter of Mrs. Thelma Cook, 1115 West Sixth, who held numerous offices at the state and was the keynote speaker at one of the conventions.

Average Man May Look To 9 Years Retirement

WASHINGTON (AP)—By 1975 the average man can look forward to nine years of retirement before he dies, compared with only six years today and three in 1909.

That is just one conclusion reached in a lengthy study made public today by the Bureau of Labor Statistics.

"The gap between the working-life span and the total life span," the report said, "continues to widen for most American workers."

HAPPY HOLIDAY HANDFUL!

Makes Country Club
extra easy to take!

Take along the 6-CAN
HANDY PACK!

Pick up plenty
for the "4th"

HANDIEST WAY
TO ENJOY

Country Club

THE
Bright
BEER

Only Country Club is made from 2 fully aged beers...
one light, one dry. Result: mmm! *The Bright Beer!*

Brightest thing in sight, *this July 4th*, is the handy Country Club 6-Pack! Six convenient cans of the sparkling, golden beer that's tops in popular favor!

Want to know why?

It's because Country Club—and *only* Country Club—is *two beers in one!* One beer is a *light* beer, complete and perfect in itself. One beer is a *dry* beer, brewed to perfection, too. Together they make *the bright beer*—ah!—Country Club!

No wonder Country Club is so easy to take... and you'll take it even easier in this handy 6-Pack! Pick up two or three today!

Chiefs Hot In Sunday's Heat, Boil to 15-1 Win Over 'Knobs'

It Was Second Loss Of Day for Team Beaten Also by Katz

The Sedalia Ban Johnson Chiefs trounced the Knob Noster team last night at the Liberty Park diamond 15-1 behind the four-hit pitching of Jack Barnes. Barnes fanned ten batters and gave up but one base on balls as he set the Knob Noster team back on its heels. It was the Chiefs' second loss of the day. The first came at the hands of the Kansas City Katz by the score of 5-4.

Don Broadus, Chiefs center fielder, was the big gun as he connected for four hits in five trips to the plate, drove in three runs and scored four. He also robbed George Thompson of at least a triple and maybe an inside the park homer.

Knob Noster broke out in front in the top half of the second inning as Bus Walker walked, Moss singled, sending Walker to third. Walker then scored on a fielder's choice. Barnes then retired the side.

The Chiefs started their slaughter in the bottom of the second as Bartlett singled, Cochran reached first on an error by the shortstop, Broadus then tripled to the left field corner. Broadus scored when the third baseman fumbled the throw to third. In the fourth inning the Chiefs fanned on a walk, a single and another walk. In the third they scored two runs on a walk, two errors, and a passed ball.

Again in the sixth the BJ's scored two runs on two walks and errors.

The seventh was the big inning for the Chiefs as they scored five runs when Cochran singled, Broadus singled, Barnes sacrificed, Thomas fanned, Higgins singled, driving in Cochran and Broadus, Dey walked, Brown tripled, sending Higgins and Dey across, and Brown scored on a passed ball.

In the eighth the Chiefs tallied two more on a walk, error and two hits.

The box score:

CHIEFS	AB	R	H
Knob Noster	31	1	4
C. Thompson, 1b	4	0	0
Waters, 2b	4	0	0

Post 16 Wins In Heat, 20 To 3, at Alma

The Post 16 Junior Legion team made things hotter at Alma Sunday afternoon as it banged out a lopsided 20 to 3 victory in a seven inning contest called because of the weather. Jim Fall was the winning pitcher, making his record 3-0 for the season. Bob Abney came in in the fifth and gave Fall a rest from the sun.

The Alma boys were only able to collect four hits off the hurling of Fall and Abney. Fall fanned six and Abney three. This was the Sedalia post's second win over the Alma club and they now have only two games to go to become the winner of this district.

Post 16 pounded out 17 hits as Buck Bennett and Jim Fall led the Sedalia team's hitting with three for four and three for five respectively. Burton, Miller, Mines and See connected for two.

Post 16 scored in every inning. Thursday the Post 16 team will journey to Boonville to play a night game.

Louise Suggs Wins National Women's Open, Then Talks

PHILADELPHIA — Louise Suggs had a little piece to speak after she had won the 7th annual National Women's Open golf championship and established a new women's world record for 72 holes. "I want people to know that I'm not cold. I don't have ice water in my system," said the southerner whose 284 in the four day open at Bala Golf Club was the best four rounds ever posted by a woman golfer. The old record was 288, set by Mrs. Babe Zaharias at Palma Ceia Country Club, Tampa, Fla., last year.

Rolling Cars Feature Races Here Sunday
Racing fans received their money's worth of excitement Sunday afternoon as the CMRA held races on the one-fifth mile track, 1 1/2 miles east and south of Sedalia.

Harold McBain brought the crowd to its feet as his car took a double roll on a curve after coming from behind to overtake the lead car in the main event. McBain led the pack until the 17th lap when the accident occurred and Jim Litton from Marshall went on to win.

Roll Templeton of Sedalia and Bill Cummins of Marshall also turned their cars over, both doing so in the feature race. Templeton had his car turned over into running position by the pit men and finished the race, taking third. Vint Siegel drove his new car to a second place in the main event and Jewel Kidwell took a first in the consolation race, driving for Siegel in his new car.

The fastest time in the trials was Roll Templeton's 18.4 seconds. In the heat races Harold McBain and Jack Lemons were the winners and in the main event they were big but McBain took a double roll and Lemons' car started missing.

Tuesday evening some of the local boys will journey to Kansas City where they will race at Riverside Stadium. Last week three local drivers placed as the crowd of some 4,500 looked on in astonishment at the low built cars the Sedalia boys were driving.

Sunday's Stars
By The Associated Press
BATTING — Dick Kryhoski, Browns — Blasted a home run with two out and two in the last half of the ninth to give his team a 3-2 victory over the Detroit Tigers.
PITCHING — Allie Reynolds, Yankees — pitched his third two-hitter of the season, his 10th win and his 14th complete game as the Yankees shut out the Washington Senators, 5-0, in the first game of a doubleheader. The Yankees also won the second game, 3-1.

Homer In Ninth Wins for Browns, Rain Stops Cards

By the Associated Press
It was Dick Kryhoski's day at Sportsman's Park in St. Louis Sunday.

The big first baseman poled a three-run homer to give the Browns a 3-to-2 victory over the Detroit Tigers in the ninth inning after two were away.

And that was the way things ended for Tiger hurler Virgil (Fire) Trucks who must have been thinking about a victory and a refreshing shower as he stood on the hillcock in the 104 degree heat just one out to go.

Duane Pillette did a bit of pitching himself for the Browns but he wound up as just a man who retired 17 batters in a row. Satchel Paige pitched in the ninth for his sixth victory of the season after Pillette had been lifted for a pinch-hitter.

The weatherman stepped in at Pittsburgh to do what opposing pitchers have been unable to do for nearly a month now — stop Stan (The Man) Musial's hitting streak. A heavy rain caused Musial to go without a hit for the day and the St. Louis Cardinals trailing, 2-1, in the fifth. The Pirates came out with the game when the rain washed out the rest of the Sunday doubleheader.

Former Cardinal hurling ace Howie Pollet gave up only two hits to the Redbirds over the short route. Up only once officially, Musial's hitting streak ended after 24 consecutive games.

In 1950 he went on a batting streak which stretched over 30 games.

New Car 'Style' Show Between Races At Fair on 4th

A style parade of new model cars will be presented as a special "between-the-races" feature of the second annual July 4th 100-mile new car auto race, scheduled at the State Fair grounds Friday afternoon.

"It will be a sort of fashion show of 1952 cars," said Rollo E. Singleton, secretary of the sponsoring State Fair, Dealers in Sedalia and nearby cities are cooperating, he said.

The auto parade will precede the start of the 100-mile race, which is scheduled to begin at 2:30 p. m.

Qualifying time trials for the \$3,000 holiday race are slated to start at 12 o'clock noon.

Germans, Soviets Intend to Place High In Olympics

LONDON —Germany and Soviet Russia served notice to the world over this weekend that they intend to carry their quota of honors in Olympic track and field competition at Helsinki in July.

While the U.S., which usually dominates track and field competition, was selecting its 1952 squad, Berlin and the Soviet Union were telling proudly of the accomplishments of its athletes at Kiev.

Germany, which has not competed in summer Olympics since 1936, is somewhat of an unknown quantity. The Soviet Union, which never has taken part in the Olympic Games, is a strong threat in many events—on paper, at least.

Germany produced a sensational 3-43 world record—equaling performance yesterday in the 1,500 meters by the youngster Werner Lueg, an 8:50 clocking by Helmut Gude in the 3,000-meter steeplechase, and a 195-foot 1-5-inch heave of the hammer by 39-year-old Karl Storck.

The Soviet results—always treated skeptically in these parts—included an 8:48.6 clocking in the 3,000-meter steeplechase by Vladimir Kasanetz, who has been the "winter book" favorite in this event.

But what was much more startling—unless it was a "command performance"—was Kasanetz's victory over the Czech wonder runner Emil Zatopek in the 5,000-meter race at Kiev in the excellent time of 14:13.2. Zatopek didn't

Three Americans In Wimbledon Quarter Finals

WIMBLEDON, England —The United States sends three players into the quarter-finals of the Wimbledon Men's Singles. Champions today in a bid to keep the crown it has held since 1947.

Of the three, Dick Savitt, Orange, N. J., probably has the best chance. The defending champion, he has also held the Australian championship, but Vic Seixas of Philadelphia and Herb Flam, Beverly Hills, Calif., also could make it.

The possibility of an American triumph may depend on which of the three U. S. stars is able to avoid the "bad guy" which plagues many of the world's top-flight performers during the two-week Wimbledon grind.

Frank Sedgman, top-seeded 24-year-old Australian considered by many to be the world's No. 1 player, had such a day last year when Flam beat him with inspired tennis in a four-set quarter-final match.

One of the Americans is sure to be eliminated today as third-seeded Seixas, the U. S. ranking player, goes against Flam, seeded sixth. Meanwhile, Savitt, ranked fourth, should be able to conquer the eighth seed, Mervyn Rose of Australia.

In other quarter-final tests, Sedgman is pitted against seventh-seeded Eric Sturgess of South Africa, and second-seeded Jaroslav Droby of Egypt faces Australian titlist Ken McGregor, seeded fifth.

The women's singles resume tomorrow with five Americans, two Britons and one Australian in the quarter-finals.

CCC Wheat Loans Now Available

If agriculture is to stay in a healthy economic condition, our price support programs must be fully utilized by producers of supported commodities, states James A. Harvey, chairman Pettis County PMA Committee.

Right now Pettis County is in midst of one of the largest and best wheat harvests we have had for several years. This is generally true of the whole wheat belt and as a result of strain on shipping facilities and overloading the markets, the cash wheat price has dropped and is considerably below the support price.

But to protect producers from the necessity of selling their wheat on this low market we have the wheat loan or price support program which provides a guarantee return of 90 per cent of parity.

Wheat may be stored for loan on the farm or in warehouses. If the producer has suitable wheat storage facilities on the farm such that the grain may be protected from infestation of weevil and dirt caused by rodents, this method of storage is satisfactory. The wheat must be in the bin for a period of thirty days prior to inspection and sampling for loan eligibility. Producers who plan to store the wheat on their farm should notify the county PMA office as soon as the wheat is in the bin so that the end of the 30-day period may be recorded.

"Very little local warehouse storage space is available and therefore the major portion of our wheat must be shipped to terminal warehouses for storage," said Harvey. There may be a question of obtaining storage in terminal warehouses and a slight delay, say a couple of weeks, in turning the crop into cash, but the waiting could mean the difference of an additional 10 or 11 cents per bushel in receipts after all expense is paid. The delay would be the length of time necessary to complete shipment through a local handler to the terminal warehouse and return of the warehouse receipt evidencing amount and grade of wheat in storage.

The wheat loan rate at points in which we are interested are: Pettis County - \$2.26; Kansas City - \$2.46; and St. Louis - \$2.50 per bushel. These rates are subject to an upward revision on July 1, 1932, but will not be decreased, explains Harvey. Except in the case of farm stored wheat - the cost of storage for the loan period will be deducted from the support (loan) rates in computing proceeds of the loan. This storage will amount to 11 or 12 cents per bushel depending on the date the grain was received for storage.

What Grass For Improved Pasture Is Big Question

"I want to sow 10 acres of improved pasture this year. What grass and legume would you suggest?" This question is asked frequently at the Extension Club of the county. To secure a large quantity of feed for pasture a liberal supply of nitrogen must be applied each year. The sources of nitrogen are from the organic matter in the soil and what is added by growing legume, applying manure, or through applying a nitrogenous fertilizer.

The best legume to fix nitrogen from the air is ladino clover. But ladino clover presents a bloat hazard. This is great unless you grow a luxuriant crop of grass to have about as much grass forage as legume forage. Tall fescue, whether alfalfa or Kentucky 31 is the best known grass to use. It should be used on low organic matter soil and on poorly drained land. Fescue also has the ability to grow at low temperatures, hence, making a marvelous fall and winter pasture. It is less palatable of any of the 3 permanent pasture grasses, but does put good grains on beef cattle and large quantity of milk in the fall in the spring, fall and winter. Or, well drained soil with a medium amount of organic matter orchard grass is excellent.

On well drained soils with 3 to 3.5 per cent organic matter and bitter bromegrass is tops. It's palatable and nutritious. Timothy is a good grass to seed in all these improved pasture mixture. It's palatable, and high yielding. Its weakness is its inability to thrive under heavy pasturing. Its place is to furnish a large quantity of good feed for the first two or three years while the other grasses are getting established.

Red top will soon be crowded out by ladino. Bromegrass on land other than described above will not furnish enough forage to prevent a bloat hazard unless liberal quantity of nitrogen in fertilizer or in manure is applied.

Start Now Getting Seed Bed Prepared For Better Pasture

"When is the best time to start preparing a seed bed for improved pasture?" you are asking. A short and brief answer is "now or sooner", you have the necessary mineral treatments put on to plow under. The next answer would be just as soon as you can get these minerals on in the quantities that the soil test shows is needed.

Preparation of the seed bed may well start by plowing under all the minerals needed except the starter. A good practice is to follow up the plowing with a narrow or disk to pulverize the soil enough to conserve the moisture. Repeat this after each rain or often to kill young weeds and conserve mois-

CHILDREN IN LINE FOR 9 POINT HEALTH INSPECTION sponsored by the Hughesville Extension Club. Left to right (seated): Mrs. John Fowler, club health chairman, helping Mrs. Jack Fowler register children, and Mrs. Fred Hows; (standing) Judy Moon, Sherry Nagel, Sherry Hows, Frances Hows, Barbara Hows, Mrs. Clinton Lowery and Patty Hows. Ninety-six children were given the health inspection at Hughesville.

Extension Club of the Week

Hughesville Club Began In 1927. Then Was Better Homes Club; Name Changed Again, Still Has 10 Charter Members

Extension Club of the Week By Mrs. Edwin Bruening, Historian

In the year of 1927 a standard community organization was formed at Hughesville. Two years later, in November 1929, at the Methodist Church, the ladies of this organization formed a home economics extension club which was called the Better Homes Club. Mrs. Claire Montgomery, home agent, presided at the first meeting to elect the officers. The first officers of this club were: president, Mrs. Elmore McCurdy; vice-president, Mrs. David Duly; and secretary-treasurer, Mrs. Edward Callis.

The members voted to hold their monthly meetings the first Friday of each month, the place of meeting and hour to be decided at each meeting. The next meeting was voted to be held at the home of Mrs. John Callis, on Dec. 6, 1929. There were 56 ladies enrolled at the first meeting. Ten charter members of this first organization are still active in the club.

The ladies appointed hostesses for their noon meal, having all day meetings - which is being still carried out in the club. The club carried out a cultural program of music, book reviews and paintings. From the first organization up to the present day we enjoy a day of fellowship and learning new ideas every month from the county extension club programs.

At some time during the years the name of our club was changed to Hughesville Home Extension Club. It is not known in what year the change was made. The officers are elected for a two year period. The following women served as officers from the year 1931 to the present time: presidents, Mrs. John Fowler, Mrs. Lawson McCurdy, Mrs. Eunice Conway, Mrs. G. G. Gorrell, Mrs. Charles Rages, Mrs. V. Fowler, Mrs. Raymond Nagel, Mrs. Clinton Lowry, Mrs. Art Martin, and Mrs. Edwin Bruening; vice-presidents, Mrs. G. E. Callis, Mrs. J. O. Kinchloe, Mrs. Charles Bliss, Mrs. Charles Rages, Mrs. C. N. Richardson, Mrs. John Callis, Mrs. Bruce Claycomb, Mrs. Ray Nagel, and Mrs. Edwin Williams.

George Washington's Mount Vernon estate was equipped with a small brewery, according to the Encyclopedia Britannica.

Westminster Abbey's Poets Corner contains the bust of Longfellow and tablets to Lowell and Walter Hines Page.

SCUTL has met and defeated Crabgrass on thousands of lawns in past three years. Simply scatter SCUTL granules over the lawn with spreader. Crabgrass is doomed, good grass unharmed.

Three or four SCUTLings at weekly intervals save your lawn from Crabgrass at a modest cost. Price per single treatment: 400 sq ft. - 79c; 1250 sq ft. - \$1.95; 5500 sq ft. - \$5.85.

SCUTL SPREADERS provide quick, lawn weeding, feeding or seeding. Sturdy steel construction, rubber tired. \$7.35 \$12.50.

No '53 Wheat Allotments Or Sale Quota

There will be no acreage allotments and no marketing quotas on 1953-crop wheat, Secretary of Agriculture Charles F. Brannan has announced.

The secretary's announcement followed a finding that the supply of wheat for the 1953-54 marketing year is indicated to be larger than the quantity that would normally require proclamation of marketing quotas, but that wheat production considerably larger than the quantity called for under acreage allotment provisions of the Agricultural Adjustment Act will be needed in 1953.

Secretary Brannan said: "In view of the national emergency and the need to maintain reserve supplies of wheat sufficiently large to meet unpredictable situations which may develop during a continuation of the emergency, it has been determined that marketing quotas and acreage allotments will not be used for the 1953 crop of wheat."

The increased dependence since World War II of many foreign countries on the United States to help them meet their food needs is a condition of paramount importance in planning our wheat production programs. The export of wheat by the United States is an important factor in dealing with friendly countries in the common defense effort. Since the war, the shipment of wheat to these countries has averaged more than 400 bushels a year or a little over one-third of our annual production. And the demand for wheat by these countries is expected to continue at a high level.

"Wheat being a universal grain, it may be substituted for other grains in case an emergency should arise requiring such use of wheat. For instance, during the war, around 275 million bushels of wheat were used for industrial purposes, mostly for the manufacture of synthetic rubber. During this same period of critical need, nearly a billion bushels of wheat above normal was required to supplement our feed crops in the feeding of livestock."

The department expects to announce next month the production goals for the 1953 wheat crop. Officials indicated the goals for wheat will be somewhat smaller than the acreage and production already indicated for the 1952 crop, but substantially larger than the quantities required if allotments and quotas were put into effect.

The Hughesville Extension Club has always been an active club, attaining the standard of achievement every year. The county home agents who have worked with us are: Claire Montgomery, Dorothy Bacon, Esther Dilsaver, Alice Mae Alexander, Lillian Watkins and Mae Everett.

At the present time we have 28 members. The officers, chairmen, project leaders and members are: president, Mrs. Edwin Bruening; vice-president, Mrs. Walter Smith; parliamentarian, Mrs. Art Martin; secretary, Mrs. Edwin Williams; reporter, Mrs. Harold Conway; song leader, Mrs. Joe Williams; game leader, Mrs. Art Martin. Family relations chairman, Mrs. John Callis; health, Mrs. John Fowler; reading, Mrs. Clarence Culpe; community improvement, Mrs. Dwight Lowry; policy, Mrs. C. L. Rages; dramatics, Mrs. Julian Fowler.

Food and nutrition project leaders, Mrs. Fred Hows and Mrs. William Binkley; clothing project leaders, Mrs. Will Fowler and Mrs. Kenneth Sands; home management leaders, Mrs. Marion Houchen and Mrs. Roy Tegmeier; horticulture project leaders, Mrs. Walter Smith and Mrs. Alonzo Moon; handicraft project leaders, Mrs. Edwin Williams and Mrs. Clinton Lowery.

Other members are Mrs. Floyd Bailey, Mrs. Robert Bealert, Mrs. Edmund Martin, Mrs. Henry Nagel, Mrs. Bettie Thornton, Mrs. James Wiley, Mrs. Will Wheeler, Mrs. C. N. Richardson, and Mrs. Jack Fowler.

HUGHESVILLE EXTENSION CLUB cooperates with Mrs. Betty Murrell in giving children of the community 9-point health inspection. Left to right: Mrs. Edwin Bruening, club president, Mrs. John Fowler and Mrs. Jack Fowler, registering children, Mrs. Clinton Lowery weighing and measuring children, and Elaine Lowery, daughter of Mr. and Mrs. Clinton Lowery, being weighed.

Balanced Farming Notes--

Midyear Agricultural Outlook Shows Income to Be Near Same

By Merle Vaughan

County Agent Roy I. Coplen, Home Agent Mae Everett and I attended the Midyear Outlook meeting at Clinton last week and were given the expected "low-down" on prices etc for the rest of 1952.

Some of the highlights were:

1. Farm production and marketings may be slightly larger, prices received by farmers slightly lower and prices paid by farmers slightly higher than in 1951.

2. Net farm income in 1952 is expected to be about the same or slightly lower than in the preceding year.

3. Farm land prices rose 17 per cent in Missouri in 1951. Unofficial reports indicate much fewer sales and a leveling off of prices so far in 1952.

4. Feed prices are expected to continue slightly below April levels until the size of the 1952 crop becomes more evident.

5. Beef cattle slaughter in the next 6 months may be moderately larger, and prices moderately lower, than in the same period last year.

6. Hog slaughter, July to December, 1952, is expected to be moderately lower and prices moderately higher than a year earlier.

7. Sheep and lamb slaughter is expected to be slightly higher and prices sharply lower in July-December 1952 than in the same period in 1951.

8. Dairy production after mid-1952 will be about the same and prices probably will be materially higher than in the last half of 1951.

9. Egg marketings in the latter half of 1952 are expected to be about the same as a year earlier, and prices to be slightly lower.

10. Wheat production, near record; exports, 15-20 per cent lower, prices, continuing at or below support levels of about \$2.21.

11. Soybean prospects for 1952 are for about the same production, larger supplies and lower demand and prices than in 1951.

12. Farm family living expenses will be slightly higher than a year earlier.

Clipping Pasture At John Coffey's I had the opportunity recently to

go over some of the John Coffey farm near Springfield with Mr. Coffey. He has a considerable acreage of new improved pasture and also some alsike clover both of which were suffering in the drought. John has already clipped both fields twice in an effort to save them. The clover still looked alright where the clipping had been done while in an adjoining field of bluegrass the lespedeza was shriveled and nearly dead. Mr. Coffey has recently cleared

about 20 acres of new ground, has cut several drainage ditches thru it and plans to put in corn in 1953. Two bottom fields in corn at the present time looked very good. One had been treated with 1000 pounds of rock phosphate and 200 pounds each of mixed fertilizer and ammonium nitrate per acre. It had enough corn in the row to yield about 80 bushels per acre (1 stalk in 14 inches) and is so located that it can be irrigated from a large spring if necessary.

Plan Lots At Sheltons Herman Hall, Extension Agricultural Engineer, was in the county the other day to assist with problems and I was asking him about some lot plans I was drawing for R. D. (Dick) Shelton of Hughesville.

Usually two things can be accomplished by a revision of farm building arrangements on a beef cattle farm. One is holding lots, loading chute and a squeeze chute to handle animals that need close attention. Often a scales can be worked into the above arrangement. The other thing is a field entrance so that field equipment can be moved from the farm lot to the fields without going thru barn lots and having a lot of gates to open. Both of these things are being planned at Sheltons.

11 Soil Samples Came In For Tests You folks who plan to seed some pasture this fall should be getting your soil samples in for testing. We have just recently tested 11 samples including 3 for Raymond Keith of Sweet Springs, 5 for R. D. Shelton of Hughesville, 2 for Dr. C. L. Parkhurst of Houstonia and 1 for Dr. Chas. Osborne of Sedalia. Possibly worthy of mention is that 10 of the 11 are from the north west part of the county.

New Formula To Figure Rock Phosphate County Agent Roy I. Coplen has recently worked out a formula for figuring the amount of rock phosphate to put on a field. The old standard has been 1000 pounds per acre but often times this isn't

New Formula To Figure Rock Phosphate County Agent Roy I. Coplen has recently worked out a formula for figuring the amount of rock phosphate to put on a field. The old standard has been 1000 pounds per acre but often times this isn't

enough and now and then it might be more than necessary. The formula is to subtract the phosphate test of 15. Subtracting the 15 from 200 leaves 185 and that multiplied by 7 equals 1295 or practically 1300 pounds of 33 per cent rock phosphate. If 30 per cent material is used about 10 per cent more should be added.

Soybeans were introduced into Illinois in 1896 and since have grown to be a major crop that a dragging brake on one automobile wheel may be the result of a weak brake shoe return spring.

THE SEDALIA DEMOCRAT--Sedalia, Mo., Mon., June 30, 1952

enough and now and then it might be more than necessary. The formula is to subtract the phosphate test of 15. Inside the Republican Party: These Are Main Issues as GOP Eyes 1952 Vote

By JOHN GUNTHER
Written for NEA Service

LET us burrow further into the Republican Party. An "Issue," according to the dictionary, is a point or question in dispute. To a politician, an issue is something to win on, keep from losing on, beat about or try to muffle. As the Republicans see the 1952 race, the main issues will be the following:

1. Korea.

The main emphasis here, most Republicans say, will not be so much on the fact that the United States is fighting in Korea, but on how this tragic war is being fought. There will be questions, vigorously asked, on why Mr. Truman did not consult Congress before ordering American forces into action, why there has been no declaration of

How much do you know about what's happening inside the two major parties at convention time approaches? Here's the penetrating story on the struggle for political power, detailed by John Gunther, one of this generation's best-known reporters. This is the second of his five articles on the Republican Party, written exclusively for NEA Service and The Democrat-Capital.

Acheson Tells Austria U. S. Plans Freedom

VIENNA, Austria (AP) — U. S. Secretary of State Dean Acheson paid an official visit to this Communist-tinged capital today and told the Austrians "the constant aim of United States policy is to hasten the day when independence will be given to Austria."

Coming here from Berlin, Acheson was scheduled today to call on Austrian President Dr. Theodor Körner, Chancellor Leopold Figl and Vice Chancellor Adolf Schaerf.

The secretary's jammed schedule called also for lunch with Foreign Minister Karl Gruber, a reception in the evening by U. S. Deputy High Commissioner Walter Dowling and a state dinner by the Austrian government. Acheson and his party planned to work in a city sightseeing trip in the afternoon.

The secretary's "symbolic visit" to Vienna and Berlin aim to bolster courage in the beleaguered cities and demonstrate to their free people that they are fully backed by the West.

Acheson will take off tomorrow for Brazil, where he makes an official visit before returning to Washington.

He said on his arrival here yesterday that Americans "admire and honor the patience and courage with which the people of Austria have borne the disappointments in not having had the liberty and independence promised them" during the war.

Cheering crowds thronged the square at Franz Josef Station in the American sector of Vienna to greet him. On his 20-mile train route through the Russian zone from Tulln Air Base, thousands of other Austrians cheered him loudly despite Soviet soldiers and sailors along the way.

Austrian police were placed every 200 yards along the route of the special U. S. train. A police cordon was thrown up in the city along the Danube Canal which borders the Soviet sector.

The threat of Red demonstrations failed to materialize, however, after 39 Communists were jailed earlier in the week for smearing streets and walls with "Acheson, go home" signs.

Before leaving Berlin, the U. S. secretary had assured the Germans that "we shall remain in Berlin until we are satisfied the city is secure." He reminded them "We shall regard any attack on Berlin from whatever quarter as an attack against our forces and ourselves."

He said he saw no immediate threat of Russian aggression although he did not underestimate recent pressure put on isolated West Berlin by the Communists.

To reach Tulln Air Base near here from Berlin, Acheson flew across the Russian zones of Germany and Austria in President Truman's plane, the Independence. Among others in the secretary's party were Mrs. Acheson and U. S. Ambassador-at-Large Philip C. Jessup.

war, why MacArthur was fired, and why (as the Republicans put it) we got entangled and enmeshed in truce negotiations which gave the enemy that most precious of commodities, time.

"The Korean war is one which we refuse to try to win, and at the same time one in which we cannot afford to get licked," is one Republican aphorism.

If the truce negotiations succeed and the United States gets out of Korea with honor before November, it will immeasurably help the Democrats. Everybody in the country wants the boys home and in warm socks as soon as possible.

Republican attitudes on Korea

Texas Can Harness Volcano to Bring Mexicans Electricity

MEXICO CITY, (AP) — A Texas chemist says he can harness the heat from Mexico's active 9-year-old volcano, Paricutin, to produce cheap electricity for the country's Tex. said he had submitted plans to the Mexican government for a pilot plant to cost \$17,200. He said Dr. Francisco Garcia Junto, the University of Mexico's chief physicist, was working with him.

Digmowity said this is his plan: Hot lava from the volcano 250 miles west of Mexico City would be channeled into a big pit to heat coils of cobalt pipe. Water circulating in the pipes would be converted into steam, which would drive electric generators.

The Texan said power could be produced that way "at about 3 per cent of the cost of ordinary power."

Ike Rests Today, Gets Set for Convention

DENVER (AP) — Rest and relaxation topped Gen. Dwight D. Eisenhower's agenda today.

The general pared his schedule of official duties to the bone as his aides made ready for the pre-convention move to Chicago either Friday or Saturday.

With the exception of a 50-minute meeting with delegates from North Dakota, Eisenhower was not in his headquarters yesterday.

He went to church with Mrs. Eisenhower, played golf at the Cherry Hills Country Club, and last night was guest of honor at a barbecue at the home of a friend.

Stole for Father's Day Gift, Now Kills Himself

TOLEDO, O (AP) — A 15-year-old boy, arrested recently because he tried to steal a gift for Father's Day, killed himself to make amends, the sheriff's office said.

A motorist found the body of Fred Greenburg yesterday not far from his home. The boy had shot himself in the head with his dad's 22-caliber pistol, Deputy Coroner Irvin McConnell said.

The boy had left a note to his parents saying he was "paying for my mistake."

Juvenile Court officials had released him to his parents' custody after giving him a lecture.

171 New Casualties

WASHINGTON (AP) — The Defense Department today identified 171 battle casualties in Korea. A new list (No. 596) reported 22 killed, 123 wounded, six missing and 20 injured.

cans in the past have been corrupt on a much more grandiose and fancy scale. (B) Not many people care. In the scandalous but immortal words of Will Rogers, "It's awful hard to get people interested in corruption unless they get some of it."

3. Communism.

In high government places, as evidenced by the Hiss affair in particular, the Republican high command can make great play not merely with alleged instances of Communist infiltration into government, but with Truman's bland attempt to dismiss the whole acid problem as a "red herring."

Sen. Joe McCarthy, for all the noise he has made, has never succeeded in proving that there was one Communist Party card among the 81 cases of State Department Reds he put into the Congressional Record. Nevertheless his charges will be refuted in this campaign. Many Republicans deplore McCarthy's smear tactics, but they think he has performed a public service in arousing the country at large to the Communist menace, which is real and formidable.

4. Foreign policy in general.

If Taft is nominated, his isolationist record will be fair game. And though his campaigning to date indicates he won't flinch from defending it, there's a fair chance that, post-convention, he would add a little more internationalist flavor to his views to broaden his November appeal.

If Eisenhower is the nominee, the Democrats may attack him as a turncoat if he protests too loudly against Administration foreign policy. They'll say he was one of the major executors of that policy. But the general is unlikely to be deterred by this. Since returning to America, he has already made clear he feels no personal responsibility for the Democratic program. He has sailed into Administration conduct in China, and belabored the opposition on two broad counts—cost and excessive secrecy. He accepts the program's basic concept, that the free world must be defended, but says all Americans must accept it regardless of party.

5. High prices, high taxes.

"The Democrats," say the Republicans, "are spending the country into bankruptcy." For the first time, according to the GOP the

average man in the street is acutely conscious of being hurt by taxes; he doesn't think merely in terms of take-home pay, but has been forced to figure out just what taxes cost him, and they cost plenty. A pledge of lower taxes will, of course, be a paramount item in the Republican platform. I have mentioned the Democratic answer to this earlier in this series.

6. Socialism, planned economy, and the purported baleful design of the Truman administration to "socialize" the United States.

National health insurance, federal aid to education, the Brannan Plan—all these will be sub-issues within the dominating issue, namely whether or not the U. S. is to continue to be devoted to the free enterprise system.

7. Finally, and above all, the drastic need for change. The Democratic reply to this is to say that, according to the Republicans, the country "needed a change" just as much in 1948, but that Dewey got beaten anyway.

are sharply, bafflingly, divided within the party. Some Republicans ask for a more "positive" Asiatic policy—while at the same time cutting military appropriations. Some plead for peace—and at the same time want to bomb China and encourage Chiang Kai-shek into unpredictable adventures on the China mainland. Some call Truman a warmonger—and at the same time press for an advance beyond the Yalu.

2. Corruption.

This issue has lost some of its sting since Mr. Truman withdrew from the presidential race. Whoever gets the Democratic nomination can dissociate himself from what went on in the way of mink coats, not-deep-enough freezers, and the bleary internal revenue scandals.

If Truman were a candidate, the corruption issue would be hotter. But it's hard to blame Stevenson or Kefauver for what happened under Truman any more than you could fairly blame Coolidge, who was Harding's vice president, for what happened under Harding.

Democratic replies to the corruption charge are: (A) Republicanism.

Raw Rock Once Applied Need Not Be Repeated

"How often will it be necessary for me to apply raw rock phosphate on my field?"

When the phosphate level is brought up to the optimum level by the use of raw rock phosphate it will never need another application of raw rock so long as you add an amount of phosphate equal to the amount removed. The removal is through cropping, erosion and leaching (slight).

This can best be explained by an example. A simple example is a cropping program of continuous corn — not practical in most cases but illustrates the principle. If the stalks are left on the ground and 100 bushels of corn are grown and removed there would be 40 pounds of P205 removed in the corn crop. If erosion is controlled applying 41 or 42 pounds of P205 annually would maintain the level of 200 units of phosphate. Hence, no raw rock would need to ever be applied. This 42 pounds could be added in a starter — maintainer fertilizer.

Another example would be of annual rotation of oats and lespedeza. If an 80 bushel oat crop is harvested by a combine (straw left on the ground) and a two-ton of P205 would be removed through these crops. Hence, an annual application of about 46 pounds P205 would maintain the phosphate level.

A third example is that of wheat and red clover. The P205 removed in the 40 bushel grain crop is 20 pounds while a 2-ton red clover crop removing 20 pounds. Hence, an application of 42 pounds of P205 as the wheat is seeded would maintain the phosphate level.

As far as alfalfa is concerned we have a little different story. A 3-ton alfalfa crop per year for 8 years would remove 280 pounds of P205 or 35 pounds for each year's crop. If this amount plus one or two pounds is applied annually no more P205 need to be added to maintain the level. However, if no phosphate is applied for the 8 years period then application of about 290 pounds of P205 would be needed to bring that level up to the 200 unit level. Actually perhaps less than this amount would need to be added due to the beneficial effect on the soil from the crops of alfalfa. — R.I.C.

Canned Clothing Next for Civilians? Air Force Has Some

WASHINGTON (AP) — You may be writing your favorite haberdasher one of these days for a can of double-breasted blue flannel coat with two cans of trousers to match.

The Air Force already has gone in for canned clothing.

The Air Material Command announced yesterday that 5,148 varieties and sizes of uniforms, underwear, shoes and other items worn by airmen are being packed in drums for shipment overseas. Later clothing may be canned for shipments in the U. S.

Officials said the air-tight containers are cheaper and offer more protection than any other type of clothing packages.

Enough Votes to Win Demo's Nomination

SALT LAKE CITY (AP) — Sen. Robert S. Kerr of Oklahoma contends he has enough first and second-choice ballots to make a majority and win the Democratic presidential nomination.

Kerr, here to confer with Democratic leaders from 17 Western states, said yesterday he felt he would get the nomination because no other candidate can possibly get enough first-choice ballots to get over the top.

A MAJOR ISSUE: Korea, where these U. S. soldiers march tops the list for the 1952 race.

average man in the street is acutely conscious of being hurt by taxes; he doesn't think merely in terms of take-home pay, but has been forced to figure out just what taxes cost him, and they cost plenty. A pledge of lower taxes will, of course, be a paramount item in the Republican platform. I have mentioned the Democratic answer to this earlier in this series.

6. Socialism, planned economy, and the purported baleful design of the Truman administration to "socialize" the United States.

National health insurance, federal aid to education, the Brannan Plan—all these will be sub-issues within the dominating issue, namely whether or not the U. S. is to continue to be devoted to the free enterprise system.

7. Finally, and above all, the drastic need for change. The Democratic reply to this is to say that, according to the Republicans, the country "needed a change" just as much in 1948, but that Dewey got beaten anyway.

Control of Tomato Worms

Last week several calls came to the County Extension Agent about controlling tomato worms.

Observations and reports indicate tomato plants are making good growth and the fruit growing. This is contrast to 1951 and 1950 when the disease seriously afflicted the health of the plants.

Control of these tomato worms is not difficult, says Roy L. Coplen, county extension agent. The tomato horn worms eat leaves of the plants. The well known spray with lead arsenate, using six level teaspoons per gallon of water is effective. Other well known sprays are effective such as paris green, cryolite and copper-cryolite dust.

A more recent insecticide is toxophene and methoxychlor in this order.

*The tomato fruit worm eats the fruit. The old insecticides as mentioned is effective. The order of
